Safer for patients and staff

3-way... Electric Lift, Gurney, Treatment Table

Features

Versatile The Olympic Versa-Lift will save you time and labor every day. This mobile electric lift combines three useful pieces of equipment – for the price of one. Quickly pays for itself.

Patient transport Easy to roll and steer. Light-weight – just 68 pounds, less than half the weight of most electric gurneys. Moves patient quickly from one department to another. Saves time.

Patient transfer The lift-off stretcher makes transferring patients from the Versa-Lift to tables and cages faster and safer.

Treatment/Exam Table The Versa-Lift is also a comfortable, height-adjustable treatment table that can be used anywhere needed. IV pole fits into sockets on table.

Protects against back injury No more lifting heavy dogs. The height adjusts from near floor to 40" with electric lift. Complies with ergonomic standards.

Curbside pick-up The Versa-lift is sturdily built for outdoor use. The electric lift with removable stretcher makes extracting injured animals from cars easier, safer. Then just roll the patient into the hospital. For low-boy transport use pull-out handle.

Improves patient care Compromised patients are no longer subjected to traumatic lifting and handling. Injured patients can be immobilized on the hard stretcher.

Full-range lift Adjusts smoothly from near floor to 40". Capacity, 250 pounds. Fast recharging and typically 2 weeks between charges.

Saves floor space One piece of equipment with 3 functions.

2 Lift-off Stretchers

A removable Stretcher top is securely held by 4 posts but can be quickly lifted off for moving patients from the Versa-Lift to x-ray tables, cages or recovery mats. The 2-person stretcher prevents back strain, complies with safety standards. Speeds up patient handling. Two interchangeable stretchers are furnished.

Hard Stretcher

For transport and treatment of injured and other patients. Molded of reinforced polymer. X-ray transparent. Non-slip surface. Wipes clean. Durable. 2 Velcro straps.

Soft Stretcher

For all patients. Fabric is medical-grade, anti-bacterial Herculite™. Strong aluminum frame. Wipes clean. X-ray transparent. 2 Velcro straps.
