

Olympic Elite Folding Exam Station™

See Your Patients In A Whole New Light *Comfort - Convenience - Advanced Styling*

Now... A More Comfortable Exam Environment

The Olympic Folding Exam Station™ provides a more comfortable exam room environment for patients, caregivers and clients. Patients will appreciate the comfortable, grippy, non-reflective Corian surface. Caregivers will appreciate how everything they need is located right at their fingertips so there's little need to turn their back on a patient, a significant aid in avoiding scratches and bites. And clients will appreciate the many advanced features and the sterility indicator lights, reassurance that they are receiving state-of-the-art care for their pets.

Next Level Convenience and Efficiency

The Olympic Folding Exam Station™ is far more than an exam table. In fact, it is designed to replace all the other furnishings in your exam room, significantly improving cleanliness and operating efficiency. With its built-in precision scale, you'll no longer need to rely on a questionable weight recorded in the lobby. Another innovative feature is the drop-in socket on each side of the Exam Station. These allow the table to be quickly customized throughout the day. Each socket accommodates a swing arm with 2 sockets that can accommodate any combination of Olympic accessories including a laptop tray, instrument tray, storage tray, LED exam light or Woods

light with magnifier. Power strips on both sides of the table, each with 3 outlets and a USB-C and -A port ensure the floor will always be free of cords. And finally, for your equipment and supply storage needs, there is a large Corian shelf at the top of the exam station. As a complete system, these innovations assure that everything you use is always right at your fingertips so you can work in ergonomic comfort and efficiency.

Advanced Styling and Features

The Olympic Folding Exam Station™ includes dimmable LED ambiance lighting that casts a welcoming light over the room and provides an opportunity for fun interactions between staff and clients. We recommend the light be set to RED at the end of a procedure indicating that the room is ready for cleaning and switched to GREEN when the room is ready for the next patient. The Sparkling White Corian tabletop, backsplash and storage shelf provide a touch of class and are further assurance that the room is sparkling clean. This material is designed to look as fresh and vibrant after many years of use as it does on day one. Integrating these tables into your architectural plan or existing exam rooms could not be easier, as each table is identical on the left and right sides.

Patients Are At-Ease on the Grippy, Non-Reflective Corian Surface

The Folding Exam Station is suitable for patients up to 50 lbs. Tabletop surface measures 21" x 40".

Folds Away to Save Space

The table folds down and stows against the wall when not in use.

Accessories can be easily adjusted without tools

Olympic accessories drop into sockets on the swing arms. Table can be used with or without accessories.

Storage Shelf

The 21" x 11" storage shelf provides all the space you need for commonly-used supplies or equipment.

Folds Easily

Gentle-Touch levers control gas struts that allow tabletop to fold down gently when not in use, while providing assistance when lifting into place.

Swing Arms for Olympic Accessories

Double-socket swing arms are available to mount in the sockets on either side of the table. Each can hold up to 2 Olympic accessories.

Precision Digital Scale

Built-in precision scale under the Corian® top. Scale has weight averaging, accuracy +/- 0.1 lb, lb/kg selection, large, easy-read numbers. Lifetime accuracy guaranteed.

LED Color Selection Dial

You can select any color that fits your brand. Or you can select Green or Red as sterility indicator lights. Lights are dimmable and can be turned off.

The exam room can be cast in a gentle light to indicate state of sterility or to satisfy the preferences of caregivers or clients.
