

# Olympic Fold-Up Gurney™

## Saves space – Folding Gurney – Treatment Table

**Lift-off Stretchers**  
The top is a stretcher held securely on 4 posts but easily lifts off for transferring or lifting patients, helps prevent back injuries and makes moving patients safer and faster. Eliminates awkward handling of compromised patients.

**Treatment & Exam**  
When used with the Hard Top Stretcher, the Fold-Up becomes an exam/treatment table. Has firm, non-slip surface. Four locking casters.

**STORES**

**2 Stretchers available**

**Soft Stretcher**  
Very light-weight. Medical grade, anti-microbial Herculite® fabric. Wipes clean. X-ray transparent. Strong aluminum frame. Fully welded. Feet under corners of frame provide knuckle clearance.

**Hard Stretcher**  
Converts gurney into treatment table. Molded of reinforced polymer. Non-slip surface. Wipes clean. Hard surface helps immobilize injured patients. Fluids drain to port with integrated bucket hook.

**Safety Lock**  
Durable pin automatically locks when gurney is opened. Easy release allows for quick and efficient storage.

**Ideal for clinics with limited space** – A transport gurney that folds out of the way and doubles as an exam-treatment table.

**Folds and unfolds in seconds** – To unfold, just spread the sides apart and an automatic safety lock holds it open. To close, release lock.

**Rolls and steers easily** – Large casters and steering handles at both ends. Turns on a dime.

**Lightweight and strong** – Weighs only 27 lbs but can carry 200 lbs. All welded construction.
