

Olympic Hi-Lo Wet Table™

Better presentation – More comfortable
The Only Wet Table With Adjustable Height And Swing Arms

A Combination Wet Table and Dental Table That Converts In Minutes From One To The Other

All your instruments and equipment can be dropped into 6 sockets on the heavy-duty articulated swing arms. Whether you are positioned at the front of the table for a dental procedure or positioned on either side of the table for prepping, minor surgeries or other procedures, the swing arms can be pushed forward or backward to accommodate your needs. And the tool-free design means you can change out equipment on the fly. Olympic offers adapters for most brands of anesthesia equipment and dental delivery systems as well as an integrated IV pole, instrument tray, laptop/monitor tray and LED lighting.

Saves Space and Improves Efficiency

SEATED
Comfortable 32"

STANDING
Extra tall 44"

Reduce fatigue and prevent repetitive stress injuries

Olympic's ergonomic height-adjustable design allows the caregiver to work more comfortably seated or standing, reducing stress and strain during long procedures. Can be raised from an extra-low 32" to an extra-tall 44". Fully-enclosed electric lift is whisper quiet. Footswitch is mounted on a turntable so it's accessible from any side of the table.

Includes All Plumbing

Includes quick-connect hot and cold water lines, P-trap, high-arch faucet and heavy-duty spray hose and nozzle. No additional parts to purchase, arrives fully assembled.

Pre-Installed Mounting Sockets

Position up to 6 pieces of equipment on adjustable swing arms so everything you need is at your fingertips. Tool-free design means you can customize in seconds to meet your changing needs.

Eliminate Need for Ceiling-Mounted Light

Choice of 3 LED procedure lights. Brightness up to 60k lux, dimming and color selectivity. Wider positioning range than overhead lights.

Grates Can Be Tilted for Oral Drainage

Grate tilt insert installs under grates in seconds. The 5° tilt improves patient presentation and oral drainage.

Converts Instantly to a Dry Table

Stainless steel solid top with anti-drip edge. Installs in seconds over grates creating firm, dry surface for exams.

Reduce Clutter

Integrated Power Strip centralizes all electrical connections in one place so there are no cords on the floor.

Enclosed Electric Lift – Precision height adjustment. Patient capacity 250 lbs. Clean, fully enclosed.

Large Surface – 60"x 24", 2 removable grates.

Leveling Feet – Assure solid work surface.

Install Anywhere – Fits any standard plumbing connection. Unique design – no noisy pump, no external hoses. Installs near wall or free standing. Not a built-in, can be moved in future.

Solid Work Surface – The heavy-duty construction of the Olympic Hi-Lo Wet Table provides a rigid platform for dental procedures.
