

# Olympic Elite Folding Exam Station™

**See Your Patients In A Whole New Light**  
*Comfort - Convenience - Advanced Styling*

## NEW PRODUCT!

### All-In-One Exam Room Solution

The Olympic Elite Folding Exam Station™ is a wall-mounted unit designed to replace all the cabinets and work surfaces in your exam room. With a built-in scale, two integrated power strips, a dedicated storage shelf and two swing arms that can hold up to four pieces of ancillary equipment, you can now work in ergonomic comfort with everything you need in front of you and at your fingertips. This means you will never again need to turn your back on a patient or client to take notes, reach for supplies, adjust your exam lighting, or hold a Olympic Hands-Free Wood's Lamp. You'll also enjoy the convenience of integrated USB ports for keeping your laptop and phone well charged. And because everything in your exam room is off the floor, cleanup between procedures has never been easier or quicker.

### Makes A Great First Impression

Your investment in the most advanced veterinary equipment and technologies often remains invisible to your clients, who rarely see beyond the exam room. This is where the Elite Folding Exam Station shines. On entering your new modern exam room, your clients will be greeted by the green glowing lights of the Olympic Sterility Indicator

System. This provides comforting assurance that the exam room has been thoroughly cleaned in preparation for their visit. Next, they will notice the minimalist styling, the sparkling white Corian surfaces, the bright digital scale, integrated exam lighting and laptop station. This all speaks to your commitment of being at the vanguard of veterinary medicine.

### Adaptive Technology That Evolves To Meet Your Needs

The Elite Folding Exam Station includes color-selectable LED ambiance lighting that casts a welcoming light over the room and provides a great opportunity for your client to snap a memorable keepsake photo of their first visit to your hospital. This is a lifetime workstation designed to go with you through future remodels or moves. To adapt easily to your architectural plans, the Elite Folding Exam Station includes identical power strips and swing arm sockets on each side of the table. Our commitment to innovation does not stop with your initial equipment installation. As the future unfolds, Olympic will continue introducing new accessory integrations for your swing arm sockets and storage shelf.

**All Olympic Equipment is manufactured in the USA and is backed by our full 3-year warranty**

# Integrated Precision Digital Scale – Folds Away to Save Space

## Folds Away to Save Space

The table folds down and stows against the wall when not in use.

## Accessories Can Be Added and Height-Adjusted Without Tools

Olympic accessories drop into sockets on the swing arms. Table can be used with or without accessories.

## Patients are At-Ease on the Gripply, Non-Reflective Corian Surface

The Elite Folding Exam Station is suitable for patients up to 60 lbs. Tabletop surface measures 40" x 21".

## Storage Shelf

The 21" x 11" storage shelf provides all the space you need for commonly-used supplies or equipment.

## LED Color Selection Switch

Table will glow Red when awaiting cleaning, Green when ready for next patient. Pink and Blue can be assigned to best meet hospital's communication needs.

## Folds Easily

Gentle-Touch levers control gas struts that allow tabletop to fold down gently when not in use, while providing assistance when lifting into place.

## Swing Arms for Olympic Accessories

Double-socket swing arms are available to mount in the sockets on either side of the table. Each can hold up to 2 Olympic accessories.

## Precision Digital Scale

Built-in precision scale under the Corian® top. Scale has weight averaging, accuracy  $\pm 0.1$  lb, lb/kg selection, large, easy-read numbers. Lifetime accuracy guaranteed.
