

Olympic Fold-Up Gurney™

Saves Space – Folding Gurney – Treatment Table

Lift-off Stretchers

The top is a stretcher held securely on 4 posts that easily lifts off for transferring or lifting patients. Helps prevent back injuries and makes moving patients safer and faster. Eliminates awkward handling of compromised patients.

Treatment and Exam

When used with the Hard-Top Stretcher, the Fold-Up becomes an exam/treatment table. Provides a non-slip surface, a fluid drain port and an integrated bucket hook.

Hard Stretcher
For transport and treatment of injured and other patients.
Molded of reinforced polymer.
X-ray radiolucent. Non-slip surface. Wipes clean. Durable.
2 Velcro® straps.

Soft Stretcher
For all patients.
Fabric is medical-grade, anti-bacterial Herculite™.
Strong aluminum frame.
Wipes clean. X-ray radiolucent.
2 Velcro® straps.

Safety Lock

Durable pin automatically locks when gurney is opened. Easy release allows for quick and efficient storage.

Ideal for clinics with limited space – A transport gurney that folds out of the way and doubles as an exam/treatment table.

Folds and unfolds in seconds – To unfold, just spread the sides apart and an automatic safety lock holds it open. To close, release lock.

Rolls and steers easily – Large casters and steering handles at both ends. Turns on a dime.

Lightweight and strong – Weighs only 27 lbs but can carry 200 lbs. All welded construction.
